

Moisture Test Meter

The Sonin Moisture Test Meter offers additional features & performance beyond those of the Moisture Test Tool. The meter's contact probes are at the end of 3 foot coiled cable for detecting moisture in difficult to reach locations. Scale & reference chart correlate relative and moisture percentage readings.

Product Features:

- ✓ Dual reading scale gives relative (1-10) & moisture percentages 10-28% readings
- ✓ Contact probes are on a 3' coiled cable for detecting moisture in hard to reach spots.
- ✓ The 10 point scale corresponds to moisture levels from 10-28%. Scale and reference chart correlate relative and moisture percentage readings.
- ✓ Great for Inspectors, Contactors & Homeowners
- ✓ Find out if potentially damaging excess moisture is present
- ✓ Test hard or soft wood, concrete, plaster, carpet & more to determine the extent of moisture problems.
- ✓ Locate and trace roof leaks & water seepage; assess the extent of wet rot & hidden condensation.
- ✓ Use it to check surfaces before painting, wallpapering or laying floors or tile.
- ✓ Helps you to select drier lumber.
- ✓ Requires one 9 volt battery (not included).
- ✓ Instruction sheet included
