

Moisture Test Tool

The Sonin Moisture Test Tool uses a 4 LED light system to alert users to possible moisture problems. This tool is especially valuable for any homeowner or do-it-yourselfer who is about to paint, wallpaper, stain their deck or put down carpet or tile. We designed this unit with the DIYers and homeowner in mind, with a accessible retail price.

Product Features:

- ✓ Detects Moisture percentages 14-20%.
- ✓ Check surfaces before painting, wallpapering, or laying floors or tile.
- ✓ Check decks before staining or sealing.
- ✓ Locate & trace roof leaks and water seepage and access the extent of wet rot & hidden condensation.
- ✓ Detect level of moisture present in wood, sheetrock, carpets & more.
- ✓ Find out if potentially damaging excess moisture is present.
- ✓ Test hard or soft wood, concrete, plaster, carpet and more to determine the extent of moisture problems.
- ✓ Helps to select drier lumber.
- ✓ Requires one 9V battery (not included)
